

Policies & Terms

As most private charters are fluid in nature, Arrow Limousine will always do its best to follow the directions provided by the Client. Should the Client need to change their plans, notice must be provided at least twenty-four (24) hours prior to the scheduled reservation time to ensure the best possible service. If no changes are communicated, services will proceed as booked and regular fees will apply.

1. Client Verification

As the Client (the individual or entity making the reservation and financially responsible for the charter), you verify that the rental date, anticipated times, number of passengers, routing details, and billing information provided are accurate. Routing details may be amended up to the day of the scheduled charter.

2. Reservation Authorization & No-Show Policy

By placing a reservation and securing it with a Non-Refundable Retainer (NRR), the Client acknowledges and agrees to all policies, terms, and conditions contained herein.

The Client expressly authorizes Arrow Limousine to charge the credit card on file for all charges relating to the reservation, including partial or full charges, and including full charter charges if the Client is deemed a no-show.

3. Non-Refundable Retainer (NRR)

A Non-Refundable Retainer (NRR) is a fee paid in advance to secure charter services and is non-refundable under all circumstances. An NRR is required to confirm and secure a charter booking. Once the retainer clears, the charter is confirmed for the specified date and time, and Arrow Limousine immediately turns away other inquiries for that vehicle and date.

Charter bookings of five (5) hours or more typically require an NRR equal to fifty percent (50%) of the total charter charge.

4. Payments, Fees & Charges

Arrow Limousine accepts Visa and MasterCard. Cash or e-Transfer may be arranged in advance.

- All charges are processed in Canadian Dollars (CAD)
- GST and a standard but adjustable eighteen percent (18%) gratuity are applied
- Beverage orders, parking fees, tolls, event entrance fees, or other charter-related expenses will be charged to the Client's account unless alternate arrangements are approved in advance and noted on the booking

5. Balance Due & Additional Time

The NRR is processed immediately upon booking. Any remaining balance is due within seven (7) days of the service date.

If the charter exceeds the scheduled time, additional hourly charges at the applicable overtime rate will apply. Charges for additional services or incurred expenses will be processed within two (2) business days following completion of the charter.

6. Out-of-Town Charters

Arrow Limousine operates from Red Deer, Alberta. All out-of-town charters are billed from the time the vehicle departs Red Deer until it returns to Red Deer (deadhead time).

7. Damage, Cleaning & Client Responsibility

The Client assumes full financial responsibility for all damage and/or cleaning charges caused by the Client or any member of the Client's party. This includes, but is not limited to, the following minimum charges:

- Vomit, sickness, or bodily fluids: \$250 minimum (hazmat sanitization required)
- Alcohol spillage: Cleaning fee based on severity
- Broken glassware: \$10 per glass
- Burns: \$500 replacement or repair
- Smoking or vaping violations: \$100 per violation
- Upholstery tears or damage to stereo, television, lighting, or vehicle components: \$500–\$1,000
- Opening a vehicle door into another vehicle or stationary object: \$1,500–\$2,000
- Tampering with or opening emergency exits: \$850

These fees represent minimum charges based on prior charters. All assessed charges will be billed to the credit card on file within two (2) business days, unless alternate arrangements are approved in advance.

8. Alcohol Regulations

All applicable Alberta Gaming, Liquor and Cannabis (AGLC) rules and regulations always apply.

9. Smoking, Vaping & Restricted Substances

Smoking, vaping, or the use or possession of restricted, illegal, or controlled substances is strictly always prohibited in the vehicle. This includes, but is not limited to, tobacco products, electronic cigarettes (e-cigarettes), cannabis products, and any substances prohibited under provincial or federal law.

Any violation of this policy may result in immediate termination of service without refund, and may result in cleaning, damage, or penalty charges being assessed to the Client in accordance with Section 7 of these Terms.

10. Driver Authority & Termination of Service

The chauffeur has full authority to terminate the charter immediately, at their sole discretion, if the Client or any member of the Client's party engages in conduct that is unsafe, unlawful, aggressive, abusive, or in violation of these Terms. This includes, but is not limited to:

- Smoking, vaping, or the use or possession of restricted substances
- Violations of AGLC regulations
- Interference with vehicle operation or safety equipment
- Physical or verbal abuse, threats, or harassment of the chauffeur
- Excessive disorderly or unsafe behaviour

In the event of termination, no refunds will be issued, and the Client remains financially responsible for the full charter amount and any additional fees incurred.

11. Uncontrollable Events & Service Conditions

a. Force Majeure

Arrow Limousine is not responsible for delays or service impacts caused by circumstances beyond its control, including but not limited to traffic congestion, road closures, accidents, vehicle breakdowns, flight delays, or weather conditions. No reimbursements or reconciliations will be made for these events.

b. Safety-Based Driving

Chauffeurs will operate vehicles according to road conditions, weather, visibility, passenger load, and safety requirements. Travel time estimates may change significantly in adverse conditions. Passenger safety is the primary concern.

c. Discounted Rate Waiver

Where the Client has accepted a discounted rate, the Client waives any claims regarding vehicle age, cosmetic condition, climate-control irregularities (heating or air conditioning), or non-essential amenities, provided all safety and regulatory requirements are met.
